

Business Overview

a world-class solutions integrator of
armament and technical products and services

General Dynamics Armament and Technical Products, an operating unit of the General Dynamics Corporation, is a proven systems integrator of defense products for all branches of the U.S. Department of Defense and the Ministries of Defense of over 30 allied nations.

GDATP provides our customers with advanced capabilities through our Advanced Materials, Detection Systems, Gun Systems and Weapon Systems. GDATP designs, develops and produces high-performance armament systems, a full range of high-performance composite products for the aerospace industry, biological and chemical detection systems, advanced sensor and vision-enhancement systems, and mobile shelter systems. GDATP

also provides system management for key DOD programs, including the 2.75-inch (70mm) Hydra-70 rocket family.

GDATP is an industry leader in quality performance. The Office of Naval Research's Best Manufacturing Practices Program identified 19 GDATP company business practices as "Best Practices" industry-wide. We are ISO9001:2000 registered, and have earned Software Engineering Institute Capability Maturity Model Level-3 certification of our software process capability. GDATP continues to receive many prestigious aerospace supplier, DOD, industry and environmental awards.
